"Reaching the world through Small Voices"

Jonathan Walker  
5<sup>th</sup> grade  
Montclair Elementary

Many people think that football, wrestling, and playing video games are forms of entertainment, but for me my teacher Ms. Owens is entertainment. My teacher Ms. Owens is a strong lady. One time Ms. Owens caught a student from falling off a chair. He was walking to the wall with no shoes on. He got on the chair then suddenly he fell, but my teacher Ms. Owens caught him with two hands. Then everybody started to laugh, even the student who fail. She told us not to laugh. She said that you do not

get on top of chairs. Then she said you better be glad I work out. Then he put his shoes on and put the ring on the wall. Ms. Owens is a funny teacher. She tells her childhood stories. They were about when she cut her hair. She is like a parent to me.

Spencer Bibbs Elementary

Dear Troops,

I appreciate what you have done for our country. You might not know who I am, but I am so thankful and proud of you for going out there and supporting for our American rights. I pray every night and day that you will live and work hard for the United States of America. I will keep on praying.
