Have you ever had a good friend who always played what you wanted to play? I do. We like to play with water balloons, play Mother Nature, and ride bikes. On weekends Suzi and I go out to her house and play with water balloons. Sometimes we throw it; sometimes we stand by them and squeeze it over each others heads. We play Mother Nature after school when we finish our homework. Mother Nature is played like this. You get a name like angle, star, or cloud. If Mother Nature call your name and tell you what to do you have to do that. We like to ride our bikes. We like to ride them together. We like to ride them fast and slow. We like to ride them with hands, no hands, one hand, and two hands. We like to ride them with our eyes closed or open. We like to ride them backwards and forwards. We like to do wheelies. We like to ride our bikes around the circle and around our neighborhood. We love to ride them on the bridge. Now I have told you about my friend. Now tell me about yours.

My favorite entertainer is Michael Jordan. First I like Michael Jordan clothing line and I like his shoes. Then I like his team. He makes the crowd scream out loud. He makes people faint and pass out. He has a lot of energy. I think he is the greatest person on the team. He makes me want to be him someday. I and he are almost the same size. We are both the same size. Now you know my favorite entertainer. Do you have a favorite entertainer? Who is your favorite entertainer?

My favorite movie is toy story. Toy story is my favorite movie because the toys try to escape and my mom took me to go see it. My mom bought me popcorn and something to drink. The movie was funny and I was excited to see it. It was a great movie. I love that movie. In school I sometimes think about that movie. Now you know my favorite movie.

My favorite Christmas movie is "Santa Claus." It's about someone who finds Santa on the ground, because he fell off the roof. Then he gets in the slay and rides to the North Pole and he meets a guy with black hair and his name is

Bernard, and then he gives the guy's son a snow globe. Then they decided they're going to go back to his house. The next day he was starting to look Santa Claus! He tried to shave it off, but it grew back. So he went to the doctor because he was getting bigger and bigger like Santa Claus, and the doctor said, "there is no cure" to make him skinny again. So he started to act like Santa Claus, then he was becoming to be like Santa Claus. So the next Christmas he had to deliver the presents to everyone, so he did. It took the whole night to deliver those presents! Then finally he returned to the North Pole. Well, that night he slept at the North Pole, a little elf gave him some yummy, hot chocolate! Then he went to bed. The next morning he was ordering all the little, pointy eared elves to make the toys. So on and on the same thing happened again and again. The End!

My favorite entertainment at Christmas time is to decorate the tree, and see the colorful lights in the morning. I like to wake up brush my teeth and wash my face and to open my presents. I like to open my presents and to see them and to play with them. My tree is green and it has green, blue, red, orange, pink, and white. I also like to see the lights go on and off because it looks beautiful; it has a lot of colors on the tree. I wake my sister up so she can open her presents to. I say thanks mom and dad you're the best parents I ever had. I am very excited when I get new presents because I like to play with them with my sister. When my sister and I play with our toys together we have a lot of fun. Then in a while me and my sister pick up the wrapper on the floor and throw it away in the trash can so the house will not be dirty and we will go back and play with our toys and have more fun. Our cousin come over and has a hot dinner for Christmas. I and my whole family have a nice Christmas and we will watch movies and we will talk about what we did. We will talk about Christmas movies like the, "Grinch That Stole Christmas." I and my family will have a great time on Christmas day. My family will go home and eat leftovers from my mother's house and talk about it the next day and remember about that Christmas last time that we will never forget about Christmas that no one will forget about it.

I was shooting a movie on a stormy day in the Red Falls Studio. The movie was about a boy that went to an eerie forest at night, while it was raining. So they thought it would be a perfect day to film it. Later, I started to pretend I was lost in the deep dark woods. All of a sudden I heard a sound, like a bear getting eaten. I turned around and saw the thing. "Roar"! The thing had 50 rows of razor sharp yellow teeth. Its head was a mess of eyes and teeth, with a tail that was like a mace with spikes, and what was that? "Poison"! My heart sank when I saw that it was poison. Good thing it was a movie! Boy was I wrong! I told the director to stop the
