Warrington Elem.  
5th grade

I would like to do is help people get well. By talking about health the thing about health is fruits, healthy shakes, and medicine. I always wanted to be a nurse or a doctor. That is about my whole entire environment. I like my life and I'm proud to be here. Let me talk a little more about me. I always play doctor or nurse at home because I've got all the supplies. So that is what you call practice. Practice is a good thing because practice makes perfect. I love to help people feel better. The way you can help the environment is by helping people when they fall. When they are injured, and especially people you actually know. If you don't help the people you know you are not a good nurse or doctor at all. That is just not right. So next time you write me a story telling me what you want to be, why, how, and when.

Every three days I have to wash clothes for my whole family. I usually have about three loads to do. To begin with I separate the clothes by colors, whites, darks and light colors. The next two steps are easy. I just put them in the washer, then the dryer. My last step is harder because I have to fold them all and then finally put all of them away in the bedrooms. This helps my family have nice clean clothes to wear everyday. Even more important I have to do my home work. My sisters usually help me so I can get better grades in school. My favorite subject is science. I find that very interesting. I will tell you more about me later.

Oh Wow! Did you know Warrington Elementary is an "A" school because everyone did so well on the FCAT, but the subject I like the most is science. It has interesting and kind of weird things, but you learn a lot, and to go to college you have to learn math, science, and other kinds of subjects. You have to be a good listener and be responsible for your tasks. In the meantime let's keep talking about our "A" school. The students continually work hard to be prepared to face the world. Reading at the school library is fun. You learn different definitions. Ooh gosh! Math at school is fun. We fifth graders do division multiplication, and addition. We practice math in our work books. My favorite thing about school is social studies. It talks about history.

## MATH TIME MULTIPLICATION

Complete the multiplication problems below.

$6 \times 9 =$        $3 \times 2 =$        $1 \times 3 =$        $4 \times 8 =$

$3 \times 4 =$        $5 \times 8 =$        $4 \times 7 =$        $6 \times 6 =$

$4 \times 2 =$        $4 \times 10 =$        $5 \times 10 =$        $3 \times 2 =$

$5 \times 5 =$        $7 \times 7 =$        $3 \times 9 =$        $8 \times 3 =$

$2 \times 1 =$        $6 \times 10 =$        $4 \times 8 =$        $2 \times 7 =$

$4 \times 7 =$        $8 \times 10 =$        $9 \times 7 =$        $5 \times 4 =$

$4 \times 3 =$        $4 \times 1 =$        $4 \times 7 =$        $4 \times 8 =$
